VAPORTRONIC...the electronic wall cabinet system that deodorizes with an "element" of style.

The innovative Vaportronic wall cabinet dispenses a natural deodorizing dry vapor through the use of unique, replaceable element technology.

VAPORTEK 

V A P O R T R O N I C

Exclusive Technology

The Vaportronic is a sophisticated deodorizing system that utilizes a special non-woven fiber element as its odor-neutralizing medium.

Element bays inside the unit allow placement of up to five deodorizing elements—for an unparalleled range of output from gentle to powerful. Impregnated with a unique blend of non-toxic natural oils, the elements provide long-lasting vapor output and generate very little waste. Fragrance elements are available in several varieties.

Versatile

Long-life, D-cell batteries power the fan that increases the rate of deodorization by drawing air over the aroma disks and releasing it as a dry vapor. An adjustable control provides quiet fan operation, fixed for one minute "on," with adjustable "off" cycles from one minute to as long as 30 minutes.

Cost Effective

The Vaportronic effectively treats areas up to 40' x 40'. Because the unit can accommodate from one to five disks and be programmed to pulse as desired, it provides customized service and cost-saving opportunities unmatched in the industry. Normal element life is 30+ days, making replacement easy and convenient during routine scheduled maintenance. The compact, lightweight system reduces warehouse space requirements as well as freight costs.

Ecologically Friendly

The Vaportronic system's fiber elements are long-lasting and biodegradable, making it a superior alternative to gels or spray can systems. The elements also eliminate messy spills and wet spots on floors. They contain no petroleum distillates, inert ingredients or ozone-depleting chemicals.

Specifications:

- One-year limited warranty
- Requires D-cell battery
- Vaportronic Cabinet Item #90-2600
- Uses EZ-Disk Refill Elements #34-7600 Series (sold separately)
- Flashing green LED operation indicator
- Pin lock mechanism for maximum security
- Use wall-mounted or free-standing
- Weighs less than one pound
- Approximate size: 7" x 3" x 3"
- Case pack: 12 each

VAPORTRONIC
Assembled in the U.S.A.
of domestic and imported parts.
